Text received from Chief warrant
that I call him

DS 32

Replied Chief's call he was
extremely alert. Stated things are
to be a good day. He wanted to
strong discipline today to the folks
being deployed. He advised that
there was an accident last night
where one of our officers was shot
- that Alphonse elderly attended
Wednesday Park and attempted to
recognize and they were dropped
out of the park as the wave
to him on there

That there are barney cashes
and gathering going on all night
and that needs to stop
- He's spoken to his Mahogany and
Sam heart and provided them
some more work around what he
would like to see.

That I should get briefed by it
and get into work. He wanted me
to head from the front
He indicated that this had gone on
long enough and we needed to
back as early

- He wants the fuel supply stopped and
he wants the park and people
removed

- He had received info from Jan Harker
that they were making a bomb

0537 Text received from Insp Dwyer
advising that Insp P. [unclear] had been
contacted by the chief advising that
he wanted to do an interview right
away.

- Contacted by Insp Parnell as well wanting
to speak.

whether they are being moved to
Toronto or not

- Also the request for be, force or
have may have compromised our plan

- to have a positive answer on Tuesday
thoughts are being made around changing
the date to Friday
- Also AC Bell indicated that he has
concern for the children that are
separated and we will be assigning
CAS to look up apprehended children
in need of protection
 - Digging work in all parts of the
province may pose as an issue because
we are competing for the same money.
 - There needs to be a discussion at a
higher level around priority of resources
 - Work can resume but chief has
doubt
 - The point is they have a majority of
the resources to deploy to all parts of
the province
 - Additional discussions will continue with
strip coming at varied times

1045

Clear

Advised by Insp Senechal that he
was pulled into a meeting with Supt
Baker, Supt Dummer and Insp Senechal
asking that he and Supt Dummer
prepare a plan to remove all vehicles
at the RCAF Park currently the park

is being accepted by protesters exact numbers unknown. He indicated that he wished Soft hole is point to be deployed to effect work it needed. Sgt Peterson wanted to pull him from the command center and have him assigned to this duty with consulting chain of command or advising me of the operation.

- I spoke with Brian and spoke him on to the proposal that should be used Sgt Peterson. Should have first come to me to make the request. He should also have a plan in place. He did not appear to have a plan and has talked the CEC with WSP Yarn to develop a plan to address the situation. I advised Sgt Peterson that CEC don't make plans they approve them. He was advised that he needs to inform me so that I can adjust the schedule given that we also have responsibilities for the rest of the city. He agreed that he was not going to be afraid. I advised him that needs to be a plan and to be clear the CEC has complete authority in approving or denying the plan.

1145

He indicated that he understood
 I called him back and advised
 him that he could ~~oversee~~ the speaker
 but that if there was something in the
 plan that he felt uncomfortable doing he
 should ~~oversee~~ it and make a decision
 and not feel pressured.
 Spoke with ~~John~~ Clement from Technical
 the advisor that the sketch plan is
 ready. He provided me with some
 high level synopsis of how the
 experts they will be approaching PA
 expressed the need to have all the
 players in a room to review the
 operational plan and discuss it before we
 initiate a plan.
 Mac agrees that there needs to be
 a discussion with it and the other
 elements that are sporadically needed.
 I advised him that I would be attempting
 to organize the meeting and would like
 a representative from technical present.
 - Considered ~~John~~ Mac to advise that
 he would like to meet with human
 members of the TSD team to discuss
 the plan. He indicated that he would
 be at the NCRS at 1400 and Paul

Sgt Flanagan and Sgt Edwards would also be there

- Sgt Samuel advised that he will also be at the NCC, as he is attempting to action Sgt Patterson's request of clearing out the RGT Park

500 J/S Advice - Top planning were members from London / JHP / Sgt / CID. Advise by group that they had no real plan to deal with the park as there was no lead / Street.

I advised a series of the men, who of the capacity to complete this operation and then the operation schedule for Thursday morning. The concern was that there was no capacity to do both the members tasked with clearing the park would also be the member tasked with conducting the Redwood / Street op.

- There was an issue regarding the men. The J/S members were scheduled to have 12 hrs of rest, and this cannot be. would not allow them to have that.

FLT's had already assigned the group and several of them had opted to leave, but needed a host to pick up

I cannot recall non compliant. I believe a member identified a 'Seaf' was being difficult and has been fighting with books

- I advocate that in order for any positive action to take place I need to see a plan a whole plan that would minimize safety hazards to the public and the police

- A plan that was previously presented has been modified to fit this mission statement, which is a very strong emphasis on PC

- A lot of missing pieces Arach, Jakub and investigative plan

- Any what on going that can be proceeded?

- Do we need force, resources for the vehicles they are utilized or keeping concepts

- Suggest possibility going to the Police

- Book first

- Impacts of our officer may have a ripple effect to the cases across the province

- If this is proposed event we need to be in a good position

- Discussion around how we are going to effect arrests.

- Possible at confining.

1549 Advised that there have been a number of protesters who have left Cowley Park approx 25+ people

1610 Contact Sgt Peterson regarding the operations of Richard - Peters and the Cowley Park. Sustainability a real issue. Looking to push to Friday

- Scribe taking notes

Meeting with DIC Bel. Arrived
 the full. That took place when
 Sgt. Patterson occupied DIC Ferguson
 of leaving a conflict of interest
 because he felt Sgt. Ferguson was
 undermining his decision. I wanted
 to speak to him about the issues

of the command team at the last P&B meeting in which the entire command looked defeated, I expressed my concerns about the effects that would have on the leadership - He agreed and appreciated the comments, we also discussed the decision to not proceed with the operation. He advised that it took a lot of guts to do that and it was the right thing to do.

1155

After lunch with Vince Arblitt, who advised that he was on some patrol when he came upon a vehicle that had several very large and dangerous. He stopped the vehicle and engaged the driver. He proceeded to contact the NRECC and requested assistance.

There was a delay in the O&T responding. Col Arblitt again contacted the NRECC and feels like he was outsmarted by the person who was dispatching. He feels that the person was Insp Lemos. Col Arblitt was somewhat emotional and spoke by what he feels. The weatherman said over the air, I advised him that I would speak to Insp Lemos.

about if he did indicate that he did
not hear the comments, but was told by
other members that heard the commu-
nity of the radio. In
